Pheasant

Pheasant season starts Oct. 20th, 2007 with a 3 cock pheasant per day limit.

Your hunt at Double J Hunts includes: professional guides, lodging, meals, transportation while on hunt, and clay trap shooting. Varmint hunting is permissible.

Natural terrain and extensive conservation practices allow the wild pheasants to flourish on over 4,000 acres of prime hunting land.

Contact us for hunting packages, prices, and available dates. Ask about our combination pheasant and deer hunting packages.

Whitetail Deer Hunts

Double J Hunts offers Archery Whitetail Deer Hunts, giving hunters many exceptional opportunities to bag trophy deer. The season usually runs from the end of September through December, with the peak of rut from the end of October thru mid November. South Dakota residents obtain licenses through a lottery draw, but non-residents are assured of a license when they apply.

Hunting

Our hunting location, which is second to none, is in the James River Valley of Eastern South Dakota, with its myriad of river bottom foliage and ample deer population.

Double J Hunts, of Double J Cattle Co., sits right in the middle of the Jim River Valley and boasts of some of the best prime white tail hunting and numbers of white tail deer that you will see anywhere in Eastern South Dakota. The hunting pressure from north and south of our location forces the whitetail numbers to channel through our area. Just sit back, be patient, and pick out your favorite, from the many deer that you see.

Our hunters rouse early to an invigorating morning hunt, depending upon the rut, and enjoy a blissful evening hunt while taking in one of our breathtaking sunsets. Hunters use tree stands and ground blinds in strategically placed locations around bedding and feeding areas and water sources.

Lodging

Double J Hunts offers a spacious 4 bedroom, 2 bathroom facility with beds for 12 people. We have satellite and high-def TV, hot tub, gas grill, laundry facilities, high speed internet, and unlimited long distance to all 50 states.
